On the occasion of Wopart 2017, Artrust will present a selection of works ranging from the abstract expressionism of the CO.BRA group, with strong and primitive signs of Jom, Appel and Lindstrom, to the surrealist and abstract lines of Miró, up to artworks on paper of famous street artists – Mr. Brainwash and Banksy just to quote some names – as a preview of the next Artrust exhibition scheduled for October in Melano. There will be also a work by Letizia Cariello, specially created for Artrust.
