Joan Mirò - 51 steps. An upward exhibition

Via Pedemonte di Sopra 1
Melano, 6818, Switzerland

lundi 16 septembre 2019 – vendredi 20 décembre 2019

The capsule exhibition presents a selection of the Mirò's graphic works, mainly lithographs and engravings from the 1960's and 1970's.

These creations enact the connection between the artist's subconscious creative magma and his rational knowledge of the techniques of graphic production: it is a scope which provides endless creative possibilities and it allows him to display his expressivity in a free and fruitful way, satisfying his insatiable curiosity.
